Education

Master of Science in Computer Engineering — 2022 – 10 Jan 2025
Middle East Technical University (METU) — *Ankara, Turkey*

Bachelor of Science in Computer Engineering — 2018 – 17 Jul 2022
Middle East Technical University (METU) — *Ankara, Turkey*

Experience

Research Intern — Dec 2024 – Mar 2025
Sensing, Interaction, & Perception Laboratory (SIPLab), ETH Zürich — *Zürich, Switzerland*

- Advanced research on continuous cybersickness detection in virtual reality environments using EEG-based multitaper spectrum estimation. Pioneered novel deep learning architectures achieving 30% performance improvement over baseline methods in real-time cybersickness prediction from brain signals, with potential applications in adaptive VR systems and user experience optimization.

Graduate Research Assistant — Feb 2022 – Present
Image Processing and Pattern Recognition Laboratory (ImageLab), METU — *Ankara, Turkey*

- Designed and implemented bucketed ranking loss with Sinkhorn-Knopp algorithm integration for DETR (Detection Transformer) architecture
- Achieved significant performance improvements in end-to-end object detection training through optimal transport-based loss formulations
- Published first-author paper at ECCV 2024, a premier computer vision conference (Acceptance Rate: ˜27%)

Undergraduate Research Intern — Jun 2021 – Sep 2021
Cyber-Physical Systems Laboratory, University of California, Irvine — *Irvine, California, USA*

- Developed sophisticated multi-modal deep learning systems for cardiac and sleep abnormality detection from physiological signals. Designed novel architectures integrating time-series analysis with spectral feature extraction for beat-by-beat cardiac arrhythmia classification, achieving competitive performance in international challenges. Published research findings at Computing in Cardiology (CinC) 2021.

Honors & Awards

TUBITAK 2247 C STAR Scholarship — 2022-Present
The Scientific and Technological Research Institution of Turkey (TÜBİTAK)

Best Paper Award — September 2022
IEEE/SRMC'22

TUBITAK 2247 C STAR Scholarship — 2021-2022
The Scientific and Technological Research Institution of Turkey (TÜBİTAK)

TUBITAK 2247 C STAR Scholarship — 2020-2021
The Scientific and Technological Research Institution of Turkey (TÜBİTAK)

Technical Skills

Skills: Python/PyTorch, Variational and Generative Modeling, Computer Vision, Statistical Machine Learning, Combinatorial Optimization, Reinforcement Learning
